

Hi potential member of RuReSA,

Please have a look at www.ruralrehab.co.za , www.ruresa.com & www.facebook.com/ruresa

RuReSA (Rural Rehab South Africa) is a newly formed interest group for rehabilitation professionals (viz. Physios, OTs, Speechies and Audios), who have an interest in supporting rehabilitation in rural places in South Africa.

We believe that rural work can be inspiring and fun, and with a little support we can achieve great things. Membership is free for students so get joining!

We subscribe to a Google group, by which we share information and news, and have a Facebook page, whereby upcoming events and requests for help are logged.

We also offer telephonic support to any state-employed young rural therapists by seasoned die-hards who have done more time in rural than Riaan Cruywagen did in SABC.

And there's more! We co-host a joint annual RuReSA/PACASA/ RuDASA conference focusing on rural rehab/public health / rural health issues (it's always in exciting out-of-the-way places you'd otherwise never explore!). Get cracking on the road less travelled!

Apply to join RuReSA by completing the membership form attached and emailing it to dart@sai.co.za Pam McLaren will then contact you and instruct you how to join the rural-rehab-google-group and listserve.
